**DID YOU KNOW?**

Denver Health operates a network SBHCs in Denver Public Schools (DPS). These centers are open to all DPS students, including those enrolled in Early Childhood Education Programs.

Each SBHC is staffed by medical professionals who have extensive experience caring for children of all ages. Our caring doctors, nurse practitioners, physician assistants, and other specialized professionals care for children at each location.

In addition to the medical team, we also have Community Health Advisors, Health Educators, Licensed Mental Health Therapists, and Dental Hygienists on staff.

**DID YOU KNOW?**

Denver Health operates a network SBHCs in Denver Public Schools (DPS). The first Denver Health SBHC opened in 1987!

If your child is a DPS student, they can go to any of our School-Based Health Centers for medical care. Appointments can be made any time during the school year.

Our School-Based Health Centers offer a range of services including:

- Well-Child and Adolescent Checks
- Dental (select locations)
- Injury and illness care
- Immunizations and more!
